

SERVER & NETWORK SUPPORT

InhouseCIO
The IT Department for Small Business

With InhouseCIO you can rest assured knowing that your IT systems are being remotely monitored and managed 24 hours a day, 7 days a week. We instantly know when problems arise and we begin working immediately to address them, minimizing downtime and related costs. This incredible proactive service, combined with your very own InhouseCIO dedicated team, will give you the ability to simply focus on your business. InhouseCIO's proven processes and experienced teams will ensure that your network is connected and your servers are up and running.

- ▶ Proactive Server Monitoring
- ▶ Unlimited On-Site and Telephone Support
- ▶ Preventative Server Maintenance
- ▶ Rapid Response Times
- ▶ Security and Anti-Virus Administration
- ▶ Firewall Management
- ▶ VPN Management
- ▶ Email Server Administration
- ▶ User Account Administration
- ▶ Server / OS / Software Patch Management
- ▶ Event Log and Drive Space Monitoring
- ▶ Backup Management

“We really liked InhouseCIO’s approach and the fact we didn’t need our own IT experts to communicate our needs to InhouseCIO. We would recommend them to anyone looking to have a company manage some or all of their IT needs.”

Trevor Harnett, CEO
Market Delta, LLC
